

Dear Tenant,

MARKET CITY: FIRE DETECTION REVIEW

Perth Markets Limited (PML) has engaged Engineering Technology Consultants (ETC) to conduct a site wide review of the existing fire detection system due to the number of false fire alarms experienced. Considering the existing compliant combined fire sprinkler and hydrant system, the purpose of the site wide review is to evaluate and determine the compliance of the fire detection system to the necessary Legislations and Standards.

The survey is scheduled to commence from Wednesday 25 May 2016 for one week (excluding weekends). As such, access to some tenancies may be required by ETC.

We thank you for your cooperation. If you have any queries please contact Cait Dunstan or the undersigned on (08) 9456 9200 to discuss any issues relating to the above, including any suggestions or feedback.

Regards

Ray Victor
Facilities Manager
